CONDITIONS OF ENTRY

ENTRIES

Entry *is open to all photographers, amateur and professional, worldwide.*

Sections: *There are no restrictions as to subject matter except as outlined in the rules and definitions of specific sections, or specified by law in the country.*

AN AUTHOR MAY NOT ENTER IDENTICAL OR SIMILAR PHOTOGRAPHS INTO DIFFERENT SECTIONS.

Copyright: *All parts of the image have to be photographed by the author who is holding the copyright of all works submitted. Clip Art and Copyright Free material are not acceptable. The PSA, FIAP and Focus Photo Club assume no responsibility for misuse by anyone of the copyright of published images.*

Submission: Images and a completed entry form must be submitted on line using the exhibition website. **Entrants MUST use only the English alphabet A-Z when submitting an entry. Don't use special characters such as - _ ! ? & @**

File size: All images are to be submitted in **JPEG** format. It is recommended that images should use **RGB** Color Space. Smaller images are acceptable but will be projected smaller on the screen. Please check all image sizes before submission, images with sizes greater than specified **will be rejected**. **The projection background is black, Please DO NOT fill empty space with/or add large borders. Any borders should be no greater than 2 pixels wide.**

File Naming: Files must be renamed to the photo title when submitting an entry. However, the titles should appear on the entry form as you wish them to appear in the catalogue.

Judging: Entries are limited to not more than 4 images per section.

An entrant's images will not be presented to the judges consecutively. An entrant's four images will be distributed throughout four rounds of judging in that section. Distribution of images will be in the same round order as submitted by the entrant. Judging will be by remote on-line judging due to Covid 19 pandemic. All judges will be using equipment capable of displaying images at 100%.

An image may be entered in only one section where acceptances of that image in multiple sections would be eligible for the same star path.

ETHICAL INVESTIGATIONS:

a) FIAP

By the sole act of submitting his/her images or files to a salon under FIAP Patronage, the entrant accepts without exception and with no objection the following terms:

- that the submitted images can be investigated by FIAP to establish if these obey to FIAP regulations and definitions even if the entrant is not a member of FIAP,
- that FIAP will use any means at its disposal for this undertaking,
- that any refusal to cooperate with FIAP or any refusal to submit the original files as captured by the camera, or failure to provide sufficient evidence, will be sanctioned by FIAP,
- that in case of sanctions following the non-compliance with FIAP regulations, the name of the entrant will be released in any form useful to inform the breaches of the rules.

IMPORTANT: Concerning digital entries, FIAP recommends that authors should preserve intact, with no alteration, the original metadata of images. In case of contestation for incompliance with FIAP regulations the fact of not being able to access this important data could mean that the author could be sanctioned.

Each author whose image shows any suspicions about the compliance with FIAP regulations or definitions can be requested by the organizer or by FIAP, to submit the original file (file containing the data recorded by the sensor, if so, the RAW file) plus the file of the image immediately before and immediately following the questionable image. If he/she failed to provide what is required, he can be sanctioned.

Persons who are found guilty of plagiarism are excluded lifelong from FIAP activities.

It is recommended to leave the EXIF data in the submitted files intact in order to ease eventual investigations. If at any time, it is determined in the reasonable discretion of the exhibition organizer or the judges before, during, or after the judging of an exhibition that an entrant has submitted entries where one or more images may fail to comply with these Conditions of Entry, including the stated definitions, the exhibition organizers reserve the right to delete the entry from the exhibition and void any or all acceptances or awards in connection with the exhibition. Fees may be forfeited or refunded in these circumstances. The entrant acknowledges that the decision of the exhibition organizers or the judges is final.

b) PSA

In order to ensure that images comply with the Conditions of Entry and definitions, the exhibition organizers may carry out reasonable measures to verify that:

a) The images are the original work of the entrant and

b) The images comply with the rules and definitions as set out in these Conditions of Entry

These steps include, but are not limited to, questioning any entrant, requiring the submission of RAW files or other digital files representing the original capture of the submitted image(s), confronting the entrant with evidence that one or more submitted images fails to comply with the Conditions of Entry (also known as Entry Rules), and offering the entrant a reasonable opportunity to provide counter evidence to refute the exhibition organizer's evidence by a set deadline. Such entries that are not cleared or are still questionable after the entrant has presented evidence may be considered in breach of these Conditions of Entry, and declined. Such entries may be referred to PSA for further investigation of possible ethics violations

PSA retains the right to investigate in any way all complaints/suspicious of breaches of entry conditions, impose sanctions if deemed necessary, void the acceptances of any image found to violate the PSA rules, include the entrant's name on the list of sanctions provided to Exhibitions, and share such investigations with FIAP. Entrants automatically agree to these terms by the act of entering the Exhibition and agree to cooperate with any investigation.

If another party is submitting images on the entrant's behalf, the entrant will still be held responsible for adhering to these Conditions of Entry (Entry Rules) and will be subject to sanction for any violations to these Conditions of Entry and PSA's Statement of Ethics that may result.

DISPUTES

In any case of dispute regarding compliance with the Conditions of Entry, payment of fees or matters pertaining to an image (such as receipt, acceptance, compliance, score or award), the decision of the organizers and judges to accept your application (or not) will be final. Violations and perceived violations of the Conditions of Entry may be reported to the various accreditation bodies and may result in a declination of your application to have your images included in this and other exhibitions.

IMAGE AND ENTRY REQUIREMENTS

This exhibition is open to anyone; however, an entry may be rejected when the Sponsor or the Exhibition Organizers, in their reasonable discretion, believes the entry does not conform to exhibition rules and these Conditions of Entry. Membership in any photographic organization is not required.

SANCTIONS

Entries will not be accepted from any entrant who is currently sanctioned by PSA.

PSA STAR RATINGS

To receive proper Star ratings credit from PSA, entrants must provide their names and country exactly the same in each exhibition. Aliases are not permitted. Please contact PSA in the event of name changes or relocating to another country

IMAGE CREATION

Entries must originate as photographs (image-captures of objects via light sensitivity) made by the entrant on photographic emulsion or acquired digitally.

CERTIFICATION:

By virtue of submitting an image, the entrant certifies the work as his or her own (.Images may not incorporate elements produced by anyone else (for example: clip art, images or art by others downloaded from the Internet). Aliases are not allowed. The entrant permits the sponsors to reproduce all or part of the entered material free of charge for publication and/or display in media related to the exhibition. This may include low resolution posting on a website. Note: Entrants who indicate that their images may not be reproduced or used "will not be eligible for awards" or inclusion in audio-visuals of the exhibition "and could be subject to disqualification" by the exhibition sponsors. The exhibition assumes no liability of any misuse of copyright

ALTERATION AND COMPUTER GENERATION

Subject to Divisional restrictions (particularly Nature, Photo Travel, and Photojournalism) images may be altered, either electronically or otherwise, by the maker. Adjustments to enhance images or creatively modify images are allowed providing the underlying photograph is retained in a way that is obvious to the viewer. Images may not be

constructed entirely with a computer, and must be the sole work of the author. All parts of the image have to be photographed by the author who is holding the copyright of all works submitted

RE-USE OF ACCEPTED IMAGES

Once an image has been accepted in a PSA Recognized exhibition, any identical image, or near identical image, may not, in future, be entered or re-entered in any section of the same Division Star Ratings class in that exhibition regardless of media, format, or title; may not be re-titled for entry into any other PSA Recognized exhibition, including translation into another language.

ENTRY:

An Entry consists of, up to and including, four (4) images entered by a single Entrant into the same Section. An entrant may only enter a specific Section once.

TITLES:

Each image must have a unique title. That unique title must be used for entry of that image or of an Identical Image into any and all PSA-Recognized exhibitions. Titles must be 35 characters or fewer. No titles may be visible to the judges, and nothing in the image may identify the maker. Titles must not include file extensions such as .jpg or .jpeg (or any other camera capture filenames), or words such as "untitled" or "no title". Titles may not consist solely of numbers.

COLOR AND MONOCHROME:

Color and Monochrome images from the same capture that share substantial pictorial content in common will be considered the same image and must be given the same title.

However, PSA members working on Galaxy and Diamond Star Ratings are allowed to continue using different titles of monochrome versions and color versions of the same capture that have already been accepted until the required number of acceptances for those titles has been completed.

NOTIFICATIONS

*Notification of results will be sent by email. Entrants should ensure that they provide an active email address and that spam filters are set to accept emails from Result@PamirExhibition.com. Notifications will **not** be sent by post. Also you may download a PDF certificate of acceptance/award and an Excel file of your results from your account. Just login to your account and go to "**My Results**" page on the left menu. There is an available option to resend your report card to your email by yourself, too.*

DATA PROTECTION:

By entering this exhibition, you are explicitly consenting to the personal details you have supplied, including email addresses, being held, processed and used by the exhibition organizers for purposes associated with this exhibition. You also explicitly consent to such information being sent to organizations that have accorded official recognition, patronage or accreditation to this exhibition. You acknowledge and accept that entering this exhibition means that the status and results of your entry may be made public.

REPRODUCTIONS

By submitting an entry for this salon the entrant permits the organizers to reproduce all or part of the entered material free of charge for publication in a catalogue, on an internet site and/or in other media related to this salon.

DEFINITIONS

All entries shall conform to the stricter of these definitions for acceptances and awards to be validated by all the International Organizations granting recognition or patronage.

a) Salon Definitions:

In open sections, entrants can enter photos with any kind of theme: for example: portrait, people, nature, wildlife, landscape, architecture, still-life photography, digital imaging, HDR photos, etc. All acceptance eligibility shall be in accordance with the PID Star Ratings or the Galaxy/Diamond Ratings requirements as appropriate.

***Monochrome** images may not be entered in the **Open Color** Section. The color and monochrome versions of same image, regardless of title, cannot be entered in different sections of this Salon.*

***Portrait Definition:** The portraits must be only from human.*

Travel Definition: *Photos in the Travel section shall conform to **FIAP Traditional Photo** and **PSA Photo Travel** definitions.*

b) FIAP Definitions:

FIAP Monochrome definition:

A black and white work fitting from the very dark grey (black) to the very clear grey (white) is a monochrome work with the various shades of grey. A black and white work toned entirely in a single color will remain a monochrome work able to stand in the black and white category; such a work can be reproduced in black and white in the catalogue of a salon under FIAP Patronage. On the other hand a black and white work modified by a partial toning or by the addition of one color becomes a color work (polychrome) to stand in the color category; such a work requires color reproduction in the catalogue of a salon under FIAP Patronage.

FIAP Traditional Photo definition:

A traditional photograph maintains the original image content with minimal adjustments which should not alter the reality of the scene and should appear natural. Rearranging, replacing, adding to or removing any part of the original image except by cropping is strictly forbidden.

c) PSA Definitions

PSA Statement on Subject Matter

There is one hard and fast rule, whose spirit must be observed at all times and applies to all sections offered in PSA recognised exhibitions.

The welfare of the subject is more important than the photograph.

This means that practices such as baiting of subjects with a living creature and removal of birds from nests, for the purpose of obtaining a photograph, are highly unethical, and such photographs are not allowed in any PSA exhibitions.

There is also a PSA policy on the use of aerial photography - aircraft, helicopters and drones. This policy can be found at <https://psa-photo.org/index.php?psa-policies#drone>.

The purpose of this policy is to prevent any interference with other individuals or animals which will or may cause a disturbance in their normal activity or disrupt the way any individuals or animals interact with their environment. Entry in this exhibition requires exhibitors to agree to this and other PSA policies

The content of images must comply with these General Conditions and with the Division and Section definitions listed in these conditions. Images that - in the sole opinion of the judges or the Exhibition Organizers - do not comply are likely to be disqualified so the entrant may be aware of the problem when considering entry into other PSA recognized exhibitions.

PSA Monochrome definition:

An image is considered to be Monochrome only if it gives the impression of having no color (i.e. contains only shades of grey which can include pure black and pure white) OR it gives the impression of being a greyscale image that has been toned in one color across the entire image. (For example by Sepia, red, gold, etc.) A greyscale or multi-colored image modified or giving the impression of having been modified by partial toning, multi-toning or by the inclusion of spot coloring does not meet the definition of monochrome and shall be classified as a Color Work

Monochrome images may not be entered in the **Open Color** Section. Monochrome images may be entered in other PID Color sections but will only be eligible towards PID Color Star Ratings if accepted.

Greyscale Monochrome images may be entered for Photo Travel and Nature but toned images are not permitted for this divisions.

PSA Photo Travel definition:

A Photo Travel image expresses the characteristic features or culture of a land as they are found naturally. There are no geographical limitations. Images from events or activities arranged specifically for photography, or of subjects directed or hired for photography are not permitted. Close up pictures of people or objects must include features that provide information about the location.

Techniques that add, relocate, replace or remove any element of the original image, except by cropping, are not permitted. The only allowable adjustments are removal of dust or digital noise, restoration of the appearance of

the original scene, and complete conversion to greyscale monochrome. Other derivations, including infrared, are not permitted. All images must look natural.

Attention is drawn to the PSA Statement on Subject Matter which applies to all sections.

FIAP/PSA Nature Definition

Nature Photography is restricted to the use of the photographic process to depict all branches of natural history, except anthropology and archeology, in such a fashion that a well-informed person will be able to identify the subject material and certify its honest presentation.

The story telling value of a photograph must be weighed more than the pictorial quality while maintaining high technical quality.

Human elements must not be present, except where those human elements are integral parts of the nature story such as nature subjects, like barn owls or storks, adapted to an environment modified by humans, or where those human elements are in situations depicting natural forces, like hurricanes or tidal waves.

Scientific bands, scientific tags or radio collars on wild animals are permissible.

Photographs of human created hybrid plants, cultivated plants, feral animals, domestic animals, or mounted specimens are ineligible, as is any form of manipulation that alters the truth of the photographic statement.

No techniques that add, relocate, replace, or remove pictorial elements except by cropping are permitted.

Techniques that enhance the presentation of the photograph without changing the nature story or the pictorial content, or without altering the content of the original scene, are permitted including HDR, focus stacking and dodging/burning.

Techniques that remove elements added by the camera, such as dust spots, digital noise, and film scratches, are allowed.

Stitched images are not permitted

Color images can be converted to greyscale monochrome.

Infrared images, either direct-captures or derivations, are not allowed.

Images entered in Nature sections meeting the Nature Photography Definition above can have landscapes, geologic formations, weather phenomena, and extant organisms as the primary subject matter. This includes images taken with subjects in controlled conditions, such as zoos, game farms, botanical gardens, aquariums and any enclosure where the subjects are totally dependent on man for food.

Attention is drawn to the PSA Statement on Subject Matter which applies to all sections

PSA policy on the use of aerial photography: The interest of using aerial photography is growing and the legal and ethical use of drones, balloons and aircraft by photographers is needed within the PSA organization. The following policies and guidelines shall govern their use in all PSA Divisions and International Exhibitions. Aerial images captured by drone, balloon or aircraft may be used for division competitions, international exhibitions, portfolios of distinctions and audio-visual programs as described in the rules for each event if they comply with both the legal and ethical policies included herein.

Drone Photography Rules (legal operation):

Drones are legally described as an unmanned aircraft system (UAS) which can produce either a single image or multiple images which are shown as video and is controlled by an operator (photographer) on the ground.

All UAS operators are responsible for knowing and following all laws and regulations where they operate, whether local, state, national or international, particularly in parks, refuges, recreational and designated wilderness areas.

The following United States FAA Requirements as of August 2019 are included as a courtesy. Contact the FAA at www.FAA.gov/UAS or the country where photographing for the most up-to-date rules:

- 1. The rules for the use and flight of UAS are different in different countries and any PSA member must follow and adhere to the rules of the country where the images are captured.*
- 2. In the United States UAS operation is governed by the Federal Aviation Administration, their rules can be found at www.FAA.gov/UAS , under 14CFR 107.*
- 3. All UAS must be registered, and the assigned aircraft must display its registration number. It is highly suggested that the operator's information also be attached to the aircraft. This can be obtained at <https://FAADroneZone.faa.gov/#/>*
- 4. All operators (photographers) must obtain, at a minimum, a recreational pilot's license from the FAA, or the governing body of the country in which the UAS is being flown.*
- 5. Within the United States the following FAA rules must be adhered to:*

- a. Must Fly below 400 feet
- b. Must weigh less than 55 pounds
- c. Must be flown within the visual line of sight of the pilot
- d. Must follow any safety-based guidelines of any local governing body
- e. May not be flown in federal regulated areas
- f. Never fly near other aircraft
- g. May not fly over large groups of people, public events or populated stadiums within three nautical miles of the stadium or venue
- h. May not fly near or over emergency response efforts
- i. Must be over 13 years old to operate
- j. May not fly in restricted airspace, such as within five miles of an airport, terminal radar areas, national security areas, military operation areas, around unmanned balloons and controlled firing areas
- k. Other areas that are restricted from flight operation includes thermal plumes, smoke stacks and cooling towers
- l. Should not be flown during extreme weather conditions, such as but not limited to, thunderstorms, tornados, hail, fog or low ceiling visibility

Aerial Photography Policies (ethical):

One of the tenets of photography, is that the safety and well-being of the subject, photographer and surroundings is of paramount importance over the capturing of the photograph. The purpose of this section is to prevent any interference with other individuals or animals which will or may cause a disturbance in their normal activity or disrupt the way an individual or animal interacts with its environment.

1. *PSA members and persons participating in PSA recognized activities may not fly drones above people for the purpose of photographing them or their activity, unless permission is granted in writing before any photographs are taken from the drone.*
2. *PSA Members and persons participating in PSA recognized activities may not fly drones for the purpose of photographing animals or birds in any circumstances*
3. *PSA members and persons participating in PSA recognized activities may not fly a drone in any designated wilderness area.*
4. *While complying with the restrictions listed above, PSA Members and persons participating in PSA recognized activities may photograph scenery/landscapes from a drone provided no laws or regulations are broken in the country where the drone is used.*

Aerial Photography (International):

Many countries have their own rules and regulations governing aerial photography, especially drone, usage. It is the responsibility of the Photographer (pilot) to be informed of the polices of the country or region in which they are flying (photographing). When submitting aerial images that depict a foreign country the photographer must include a statement that all applicable rules and regulations of that country have been observed.
